START BUTTON

- Push Button Ignition

[Start button module]

A feature which comes as standard equipment on luxurious cars, is now available for your vehicle.
Utilizing the break pedal, Your engine can start or stop with the push of the button.
Or, without the break pedal, use the accessory mode and have access to your vehicles many creature comforts.
Just another way EasyCar is adding convenience to your daily driving pleasure.

Available at E772AS, E702AS-S

Smart Key system

- For your Safety, security, and peace of mind

[Key Knob]

Smart key system function makes anyone without remote control cannot start the engine ever if the car key is in the key box and door is open.
Along with the knob installed on the key box, any car models can be worked as a smart key.
This technology allows you to safely and securely leave your vehicle key in your ignition. Your vehicle will not start until you start it.
The key knob covers the key, its out of site and out of mind,

Available at all TFT LCD series

SMART DOOR

- EasyCar's Patented and Industry leading LF telematics technology

This technology makes the door unlocked when the car owner with the remote approaches the vehicle and locks the vehicle when the car owner with the remote is far enough away from the vehicle.

Exciting and new LF technology is now available. Utilizing a highly stable L.F. signal, the proximity locator will consistently unlock or lock your vehicle as you approach or move away from your vehicle.

No longer fumble for your keys or transmitter when your hands are full. Customers enjoy our new convenience... you will too

Available at all TFT LCD series

Auto Side Mirror Folding

- Auto Folding Side Mirrors.

Our newest convenience system, Your mirrors will now fold in when you lock and arm your vehicle by only looking at the side mirrors from the distance, check your vehicle's security. No longer worry about damage to your mirrors in tight parking lots
Your mirrors are fold out for your use, once you open your door and unarm your vehicle.
