BELTRONICS™

Professional Series

RX45

The new RX45 is a fully integrated, high performance radar and laser detector system. It offers the convenience of built-in discreet security yet installs in dramatically less time and with fewer components than all other integrated detection systems.

- Blistering all-band protection, Discreet installation to protect from theft
- Fully integrated with the convenience of auto-on at vehicle start-up
- Advanced digital signal processing
- Auto sensitivity mode automatically reduces false alarms
- EZ preferences for customizing user settings

DISPLAY/CONTROLLER   EASY-CONNECT INTERFACE   ANTENNA/RECEIVER

RX45 SHIFTER-PACK

The RX45 Shifter Pack allows you to easily add Laser Shifting technology to the RX45 at any time. Simply plug in these shifters (front only) to the front radar receiver and increase your overall level of protection. No need to pull any additional wires through the firewall!

SHIFTER PACK

Laser Shifting feature may be limited or prohibited in some jurisdictions. Check applicable laws before using.

RX65 (RED DISPLAY)

- POP Detection scheme provides the fastest response to this latest speed measurement device
- AutoScan™ mode virtually eliminates false alarms
- Threat Display™ tracks multiple radar signals and their relative signal strength
- Ku Band detection for European travel
- Tech Display™ provides numeric frequency of any radar signal
- Programmable Digital Voice provides easy to understand announcement of all radar/laser and SWS™ messages
- 3 Signal Strength Meter Modes provide optimum flexibility in tracking alerts
- Shadow Technology provides complete immunity to the Interceptor VG-2 "radar detector detector"

Included Accessories

quick release windshield mount

coiled SmartPlug™ power cord

protective carrying case

RX65B (BLUE DISPLAY)

- POP Detection scheme provides the fastest response to this latest speed measurement device
- AutoScan™ mode virtually eliminates false alarms
- Threat Display™ tracks multiple radar signals and their relative signal strength
- Ku Band detection for European travel
- Tech Display™ provides numeric frequency of any radar signal
- Programmable Digital Voice provides easy to understand announcement of all radar/laser and SWS™ messages
- 3 Signal Strength Meter Modes provide optimum flexibility in tracking alerts
- Shadow Technology provides complete immunity to the Interceptor VG-2 "radar detector detector"

Included Accessories

quick release windshield mount

coiled SmartPlug™ power cord

protective carrying case

BELTRONICS™

GX65

- All Band Radar and Laser Protection
- **Safety Camera Database**-provides warning for thousands of locations throughout North America
- Variable Speed Sensitivity-Provides real-time radar protection based on your vehicles' speed
- SpeedCheck-provides a quick visual of your vehicle's speed during an alert
- AlertLock-permanently eliminates known false alerts by location and frequency
- Mark Location-Enables you to add known speed traps and other hot spots for future reference
- Web Ready-safety camera database and operating software can be easily updated via the Beltronics web-site
- Multi-Sensor Laser Protection
- Complete VG-2 Immunity
- Digital "POP" Radar Alert
- Advanced AutoScan™ Processing
- Crystal-Clear Voice Alerts
- Easy-to-Use Options and Controls
- Ultra-Bright High Definition Display
- Brightness Control with Dark Mode
- Safety Warning System

Included Accessories
quick release windshield mount
coiled SmartPlug™ power cord
travel case

Vector Series

Vector 995

- Ultimate X, K, and Ka radar detection range
- 7 Selectable features allow easy customization to any driving environment
- Detects latest "POP" mode radar threats
- Total Tracking Laser™ for "widest-field-of-view"
- 64 Digital Voice Messages announce all alerts
- Tech Display™ features both radar band and actual radar frequency
- Voltage Meter Mode for the driving enthusiast
- AutoScan™ automatically rejects "false" alerts in any driving environment
- AutoMute monitors extended radar encounters unobtrusively
- 3 City modes provide superior rejection of false alerts
- Shadow Technology provides invisibility to the VG-2 type "radar detector detector"
- Convenient SmartPlug™ allows alternate access to "power" and "mute" functions

Included Accessories
quick release windshield mount
coiled SmartPlug™ power cord
protective carrying case

Vector 955

- Superior X, K, and Ka radar detection range
- 6 Selectable Features allow easy customization to any driving environment
- Detects latest "POP" mode radar threats
- Total Tracking Laser ™ for "widest-field-of-view"
- 64 Digital Voice Messages announce all alerts
- AutoScan ™ automatically rejects "false" alerts in any driving environment
- AutoMute monitors extended radar encouters unobtrusively
- 3 City modes provide superior rejection of false alerts
- Shadow Technology provides invisibility to the VG-2 type "radar detector detector"
- Standard Power Cord and Windshield Bracket

Included Accessories
quick release windshield mount
standard coiled high performance cord
protective carrying case

NOT FOR SALE IN QUEBEC, ONTARIO AND MARITIME PROVINCES

BELTRONICS™

Vector 940

- Selectable Features allow easy customization to any driving environment
- Detects latest "POP" mode radar threats
- Total Tracking Laser™ for "widest-field-of-view"
- Digital Voice Messages announce all alerts
- AutoMute monitors extended radar encounters unobtrusively
- City and Highway modes
- Shadow Technology provides invisiblity to the VG-2 type "radar detector detector"
- Standard Power Cord and Windshield Bracket

Included Accessories

quick release windshield mount

standard coiled high performance cord

protective carrying case

TOTALSHIELD
100% UNDETECTABLE

STIR PLUS (Now available) New!

- Blistering all-band radar protection
- Completely undetectable to all Detector Detector Scanners
- Ten narrow-band Ka frequencies for fine tuning international frequencies
- Instant kill function that removes the radar and laser functionality of the system, turning it into simply a GPS camera locator. The radar and laser functionality can be re-activated through the Detector Tools on disk provided
- Variable-speed radar performance
- AutoLearn feature
- Safety Camera Database - (pre-loaded with thousands of safety camera locations, including red light and fixed position speed cameras, located throughout North America)
- AlertLock-manual lock-out of false alerts like the GX65
- Mark Location Features
- Adaptive Signal Processing
- Speed Alert™
- Crystal-Clear Voice Alerts
- User-Selectable Preferences
- Database Compatible (Safety Cameras)
- High-Resolution Brilliant Red Display
- 5 Levels of Brightness Control
- Mute, AutoMute & SmartMute
- Safety Warning System - 60 specific safety messages
- Event logging
- Shifter Pack can be added if Laser Shifting is desired (sold separately)
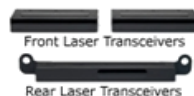

Control Module   Display

Interface   GPS Antenna   Front Radar Receiver   Amplified Speaker   Hidden Bi-color Display

STIR PLUS Shifter Pack (Now available)

- Front and Rear mounted laser transceivers

New!   To be added to STIR PLUS

Front Laser Transceivers
Rear Laser Transceivers

Laser Shifting feature may be limited or prohibited in some jurisdictions. Check applicable laws before using.

# BELTRONICS™

STI DRIVER "LITE"

- NEW Exclusive TotalShield™ Technology
- All U.S. Radar and Laser band coverage
- Dual Antenna Design
- Multi-Sensor Laser Protection
- Digital "POP" Radar Alert
- Advanced AutoScan™ Processing
- Digital Signal Processing (DSP) Virtually eliminates false alerts
- Clear Digital Voice or Audio alerts
- Mute and AutoMute Audio Controls
- Easy-to-Use Options and Controls
- Ultra-Bright High Definition display
- Brightness control with Dark Mode
- Magnesium Construction

SHIFTER ZR4

- Front and Rear mounted laser transceivers
- High-Speed A/D converter
- Remote Mute / Manual "Receive only Mode"
- Display Controller
- Plug-in Installation using Modular Connections
- Front and Rear Indication
- Automatic Brightness Control
- Self-Diagnostics mode with error indication
- Shift & Link compatible with Vector Series, Pro Series & STi

  Laser Shifting feature may be limited or prohibited in some jurisdictions. Check applicable laws before using.

Accessories

Coiled Cords

0040007-02
Coiled SmartPlug-Blue for radar detector models: GX65, STi Driver, RX65B, RX65, RX55, 995, 965, 955, 940

00100007-A
Coiled SmartPlug-Red for radar detector models: GX65, STi Driver, RX65B, RX65, RX55, 995, 965, 955, 940

14-000060-01
Coiled Power Cord for radar detector models: GX65, STi Driver, RX65B, RX65, RX55, 995, 965, 955, 940

Straight Cords

71500-004
Straight SmartPlug Blue, 12 feet long for extra length between your windshield and cigarette lighter. For radar detector models: GX65, Sti Driver, RX65B, RX65, RX55, 995, 965, 955, 940

71500-003
Straight SmartPlug Red, 12 feet long for extra length between your windshield and cigarette lighter. For radar detector models: GX65, Sti Driver, RX65B, RX65, RX55, 995, 965, 955, 940

001DWC-BL
Direct Wire SmartCord-Blue for radar detector models: GX65, Sti Driver, RX65B, RX65, RX55, 995, 965, 955, 940

001DWC-A
Direct Wire SmartCord-Red for radar detector models: GX65, Sti Driver, RX65B, RX65, RX55, 995, 965, 955, 940

71501-001
Straight Power Cord for radar detector models: GX65, Sti Driver, RX65B, RX65, RX55, 995, 965, 955, 940

79-001059-01
Direct Wire Cord for radar detector models: GX65, Sti Driver, RX65B, RX65, RX55, 995, 965, 955, 940

DA-16
Straight Power Cord (12ft) for earlier corded models

DA-19
(2) Power Cord fuses for all corded models (earlier models)

BELTRONICS™

Accessories

Radar Mounting Accessories

0010029-1 (Platform Mount with Beanbag)   *NEW*

NEW Platform mount with beanbag provides an easy way for you to mount your radar detector without having to attached your detector to the windshield. Mount uses an adhesive platform to secure the unit, and the beanbag uses an non-adhesive, non-skid surface to stay in place on the dash

0010026-1 (Platform Mount with Disc Pad)   *NEW*

NEW Platform Mount with Disc Pad provides an easy way for you to mount your Radar Detector without having to attach your detector to the windshield. Just stick it to the dash. Mount uses an adhesive platform to secure the unit, and adhesive to secure the Disc Pad to the dash.

0010027-1   *NEW*

Heavy-duty mount that moves the detector closer to you and provides a single quick release windshield suction cup. Works with all current Beltronics radar detectors

001SPK-BO

Amplified radar detector Speaker for models: GX65, STi Driver, RX65B, RX65, RX55, 995, 955, 940

79-00562-01

Windshield Suction Cup Mount-Black

DA-6

Suction Cup Kit (2pc) for all windshield Mounts (earlier models)

DA-20

Ahesive Hook & Loop Fastener

57000027

Black Visor Clip Mount

DA-48

Black visor clip radar detector mount (earlier models)

DA-48G

Gray visor clip radar detector mount (earlier models)

DA-49

Visor clip radar detector mount for the Express Cordless

Radar Detector Travel Accessories

DA-62

Zipper Faux Leather radar detector carrying case
