## GATEWAY BLUE **NEW!**

### Gateway Blue

- ▶ iPod playback through the car radio (iPod UI)
- ▶ USB playback through the car radio
- ▶ Bluetooth hands free telephone
- ▶ A2DP streaming
- ▶ Plug and play installation
- ▶ Charges iPod

MODEL	DESCRIPTION
*GBL1AU2	Audi CDC
*GBL1AI2	Audi IDC
*GBL1BM1 <b>NEW!</b>	BMW 17 pin connector
*GBL1BM4 <b>NEW!</b>	BMW 40 pin connector
*GBL1VW1	VW 12 pin connector
*GBL1VW8	VW 8 pin connector

**\*This product is basically a Gateway Lite, but with the addition of a basic Bluetooth functionality. As a Gateway Lite, it will clearly have no text capability, so there will be no phone book function, but the product will take and make hands free calls, and play them through the car audio system. The user will be able to accept an incoming call by pressing a button on the radio, but to make a call, they will have to initiate it from the phone handset.**

## Gateway Accessories

### AVR

Dension AVR is an accessory for Gateway 500 that opens up your car's entertainment system to a whole world of new and exciting possibilities.

Now there is no need to fit expensive screens into the front of the vehicle. AVR can route iPod video or external DVD into the original factory-fitted screen. If you have screens fitted in the rear of the car, it can route an alternative source there at the same time: navigation in the front, DVD in the back, DVD in the front, iPod video in the back.

AVR puts you in control, bringing your whole DVD collection into the car and all with the controls on your radio or iDrive.

MODEL	DESCRIPTION
<b>AVRG5P1</b>	Compatible with Porsche Cayenne PCM 2.1 with headunits, where TV Tuner function is available (May 2005+)

## Gateway Accessories

### IVA

**Dension IVA (iPod Video Adapter)** enables you to watch videos from your iPod or iPhone on a separate screen, either in a vehicle or at home, while providing charging to the iPod or iPhone.

**Control**

The playback is always controlled from the iPod or the iPhone through the click-wheel or touch screen.

**Functionality**

The IVA acts as a composite video-splitter providing the same video output on its video RCA connectors. If your iPod or iPhone can connect to the internet via Wi-Fi or 3G, you can also watch YouTube (or other similar) videos, free-view.TV and other video content on the internet on your external displays.

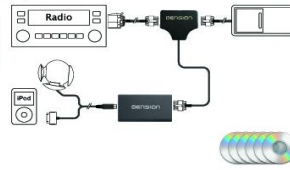

MODEL	DESCRIPTION
IVA2000	iPod Video Adapter
