# 5% LOWEST PRICE GUARANTEE

The Hoffman Group & its family of dealers and distributors is dedicated on delivering you the highest quality products at the lowest prices every day. To prove our commitment The Hoffman group is proud to offer our Lowest Price Guarantee. If you find any competitors' identical product at a lower price, we will beat that price by 5% guaranteed. Please contact your sales rep for details.

To view complete guarantee details, go to [www.thehoffmangroup.com/priceguarantee](http://www.thehoffmangroup.com/priceguarantee). Competitor's item must be in stock, THG item must be in stock. Cannot be discontinued item. Must have same features and functions. Not valid on sales or discounted products and must have same warranty. Guarantee applies to unit price of the product. THG item price must be based on THG MAP and all current discounts & rebates.

# Real Products for Real Builders

**Lonnie Gilberston** is a 2 time winner of the prestigious America's Most Beautiful Roadster Award, and a Hotrod Hall of Fame inductee. Lonnie has built some of the most beautiful and technically advanced vehicles on the road in his 45 years as a builder. Lonnie only uses the highest quality of parts on his vehicles- thats why when it comes to quality, performance, and selection, he insists on using The Hoffman Group's products.

"At **Fesler Built** our customers demand the best, and Autoloc power accessories delivers the best quality and performance on the market"

-Chris Fesler, Fesler Built

"**West Coast Customs** uses Autoloc products on nearly every build we do- they're reliable, user-friendly, cost-effective and are always available."

-Rory Connell, West Coast Customs

The following people and their rides have won awards at car shows across the nation and have Hoffman Group products on their cars. Have an award-winning ride with Hoffman Group products? We'd love to hear about it! Send us pictures. We love pictures! Shoot us an email at [RealBuilders@thehoffmangroup.com](mailto:RealBuilders@thehoffmangroup.com).

# Exciting New Products

## ION™ Xenon HID Kits

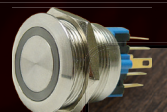

New HID kits are 3x brighter than standard halogen bulbs. Available in most popular bulb sizes and color temperatures. Kits include ballasts and everything you need to have the safest night time driving experience.

**ION HID**  
Xenon Headlight Kit High Intensity Discharge

## BilletButtons™ L.E.D. Illuminated Push Buttons & Switches

The smoothest looking button available. Latching or momentary, illuminated or non-illuminated, 6 different L.E.D. colors, with or without custom icons.

## FlipKey™ Keyless Remotes with Built-In Key

**Works with  
All Remote  
Systems**

Now the popular and elegant FlipKey™ remote is available for any car. Multiple feature options, available for any keyless system and any car!

## RFID Hands-Free Keyless Entry

No Hands! Using a high-security RFID proximity sensor, your car locks when you leave it and unlocks when you're near, and also disables and enables the ignition circuit for the ultimate in security!

award  
winner!**

## Air Suspension Control System

Control your ride! AutoLoc's™ Air Genie™ air bag suspension controller unit gives you complete control over your air bag suspension system. Featuring fully programmable settings and up to 8 user-defined presets, as well as built-in relay technology to control the air compressor, the Air Genie™ unit gives you total management of your air bag system. Control each individual air bag, front and back separately, or all four bags at once. Viewing and adjusting your settings is a breeze thanks to the unit's large LCD screen which features backlit illumination for easy operation at night. Backed by a limited lifetime warranty.

**AIR  
Genie™**

Patent D503687 &amp; 7,021,810 other patents pending

### Alarm Lock down

Full protection! Air Genie™ offers full protection - pull up, drop your car to the ground and when you arm your alarm all your buttons become inoperable and the display reads 'Alarm'. Your car becomes completely theft-proof.

### Total AirBag Control

Harness the true power of your air bag system with the Air Genie's™ advanced airbag control system, allowing you to adjust, control, and operate each bag independently of your air bag system, or in groups.

### Up to Eight (8) Programmable Presets

Set up different ride heights and ride qualities for a wide variety of situations and terrain, all accessible on the fly with a simple push of a button. **Preset at your aligned height to prevent tire wear!** True one-touch operation!

### PVT™- Programmable Valve Timing

Control your valve activation periods from a hundredth of a second up to a full second for the smoothest, most precise operation of your bags.

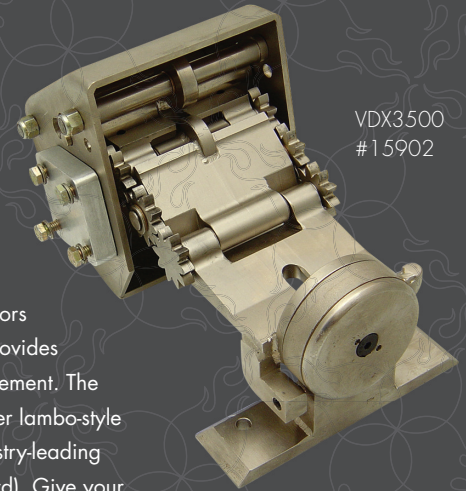

Remote operation available!

## Voodoo™ Hinge System

# AutoLoc®

VDX3500  
#15902

Raising your doors to new heights! AutoLoc's™ revolutionary Voodoo Door Hinge™ takes custom doors to new levels with an incredible FOUR (4) different types of door movement! The Voodoo Hinge™ provides both forward and rear vertical lambo door movement, as well as forward and rear suicide-style movement. The Voodoo's™ vertical lambo door movement allows for more body and fender clearance than any other lambo-style door on the market. The suicide movement of the Voodoo Hinge™ also provides clearance, with full 180° suicide hinge movement (both forward and backward). Give your car a totally unique and custom look, and raise your doors to new heights today with the AutoLoc™ Voodoo Door Hinge™.

Revolutionary engineering allows the Voodoo Hinge™ incredible fender and body clearance to rotate vertically 180°, farther than any other door on the market!

The Voodoo Hinge™ is fully guaranteed and backed by our Limited Lifetime Warranty. In addition to the warranty, the Voodoo Hinge™ is also supported by our outstanding Technical Support staff.

The Voodoo Door Hinge™ is capable of a full 180° of suicide-style movement, adding convenience and visibility to your car's interior.

Automate the incredible abilities of the Voodoo Hinge™! Our automated kits provide fully automated movement via your factory or after-market remote. Get the Voodoo™ effect with the push of a button!

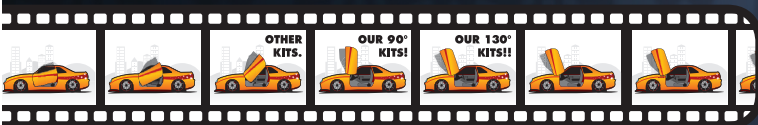

## 130° Lambo Door Hinges

### ALL DOORS UP!

AutoLoc's™ NEW Upright Door System will make your car or truck stand out in a crowd. Do not settle for kits with inadequate door movement! AutoLoc's advanced universal design ensures proper fit and a long life of smooth operation. To ensure maximum quality each kit is CAD/CAM designed. Available in universal and direct-bolt in kits. Call for more information on vehicle specific systems.

Featured on

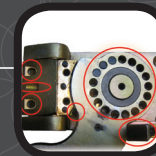

#### Anti-Wobble Design:

AutoLoc's™ Upright Door Systems feature industry exclusive anti-wobble engineering technology, guaranteeing that your doors will not wobble or sway as they are lifted. Car doors are heavy, and other hinge kits have engineering imperfections that cause them to wobble from the weight of the door as they are raised. AutoLoc™ Upright Door Hinges are CAD engineered and manufactured using the highest quality materials to ensure a lifetime of smooth, easy operation.

#### Fully Adjustable Hinge:

With 5 fully adjustable points, you have the ability to fine tune your hinges' operation. This results in smoother shutting doors, easier movement and a factory-fitting door. The central hinge is also self contained to prevent damage from the elements of nature. Patent Pending.

#### Smooth, Sequential, Multiple Plane Operation:

AutoLoc's™ revolutionary Wave adapter allows for smooth sequential multiple plane operation, supporting your doors' operation along its full trajectory, resulting in superior door movement and stability.

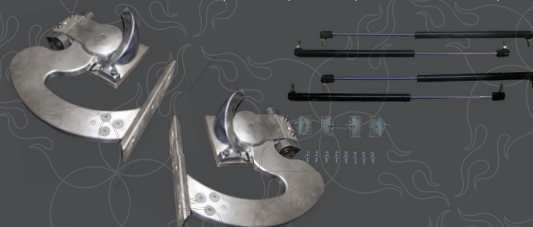

#### Remote Operation:

AutoLoc's™ Upright Door System is available with remote operation. This gives you the ability to control your doors from up to 300 feet away. This added convenience works great with the motorized UDS kit. Choose from 3 to 18 functions to operate your vehicle's doors, plus any other power accessory with the left over channels!

#### Heavy-Duty Metal Tipped Gas Struts:

Don't settle for low quality kits that include cheap plastic gas struts. AutoLoc's™ Upright Door Systems include 2 - 200+lbs gas charged struts with metal ends per door. This ensures a lifetime of smooth operation while looking great.

## Lambo Hinge Accessories

### Upright Door Loom

The Upright Door Loom protects your wires through your door's entire range of motion. Made of braided stainless steel. 18 inches long.

DLOOMBL18  
#127043

### Heavy Duty Gas Shocks

Need some help lifting your door? AutoLoc's gas struts some of the strongest on the market. Backed by a limited lifetime warranty.

GASST1 - #12737 - 220lbs Replacement Strut  
GASST2 - #14018 - 700lbs Replacement Strut  
UDSSHX - #14026 - Heavy Duty Gas Strut Upgrade

### Bolt-on Wave Assembly

The Wave Assembly directly bolts on to your UDS hinge for total support throughout the door's entire range of motion, increasing smoothness and reducing effort.

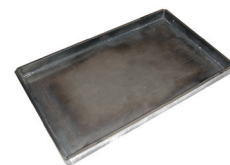

UDSWAVE  
#15903

### UDS Mounting Plate

This Mounting Plate welds into the cowl area, enabling the UDS hinge to mount flush with the cowl.

UDSPLATE  
#15904

"Great product, it works flawlessly...it even out-performed my friend's more expensive upright kit and since mine is welded, it is a lot stiffer than his expensive bolt-on kit. Thanks AutoLoc."

Seijas H. Kingsville, TX

## ION™ HID Xenon Bulb Kits

### High-Visibility Retrofit

Autoloc's® ION™ Xenon Headlight kits are the perfect way to retrofit your ride with the latest in illumination technology found today on most luxury cars. HID lighting uses less power and has 3x the brightness of halogen lights. Each kit is available in the most popular bulb sizes and fittings and in a wide range of color temperatures. Kits come complete with wiring harnesses and ballasts. Simple installation.

**3x Brighter Than Halogen**

**Plug 'N' Play Harnesses**

**Single & Dual Stage Kits**

**Includes Ballasts**

Standard Halogen

ION Xenon HID

*\*for offroad use only.*

## ION™ HID

Xenon Headlight Kit High Intensity-Discharge

There's simply no comparison between Autoloc's ION Xenon HID kit and standard halogen bulbs. With 3x the brightness, night time driving becomes much safer, especially in hazardous weather conditions. See more clearly, know what's ahead and drive safely.\* Using the simple chart below, pick your color temperature, your bulb type and ballast for a complete kit to retrofit your car, truck, van or motorcycle.

**1**

### Choose Your Bulb Style

**2**

### Choose a Color Temperature

check out  
Sealed Beam HID's!  
page 45

**3**

### Choose a Ballast Unit.

**SD** - 55w Regular Ballast  
**SL** - 55w Slim Ballast

**4**

### Fill out this chart to get your ordering number. Example Shown.

Socket      Color      Ballast

**ION + H4 + 8 + SD = IONH48SD**

**IONH48SD**, for example, would be your ordering number if you wanted to put a single beam 8000k H4 bulb with a standard ballast.

## HID Adapter Systems

On some newer vehicles, changing the current draw from almost 60 watts to the 33 watts that a high-efficiency Xenon bulb uses will cause the vehicle's computer to suspect a malfunction in your headlight electrical circuit. To prevent this, Autoloc® has adapter kits to make your ION HID kit install flawlessly.

### Warning Cancellor System- Domestic

Prevents Bulb Failure Warning when upgrading to HID bulbs from Halogen- Domestic vehicles.

HIDADP1 #51380

### Warning Cancellor System- European

Prevents Bulb Failure Warning when upgrading to HID bulbs from Halogen- European vehicles.

HIDADP2 #513822

### Decoder System

Prevents flickering of HID lights due to vehicle voltage regulation of alternator charging cycles.

HIDADP3 #513846

## Custom Lambo Door Kits

For an alternative lambo kit, try these completely custom kits that offer an all-new mounting bracket and hassle-free installation process. The Autoloc Universal kit and the Autoloc™ Chrysler 300/Magnum/Charger kit both feature alignment holes for use with studs that will make the process completely pain-free.

300/Magnum/Charger Kit- UDSK1 #10139

Universal Custom Kit- UDSK1 #10139

• **Fluid Motion** • **2 Heavy-Duty Gas Struts** • **Custom Fit & Ease of Installation** • **Multiple Adjustment Points**

## Butterfly™ Doors

AutoLoc Butterfly Doors kits deliver a unique look, while providing outstanding performance and operation. Each kit includes heavy-duty reinforced hinges, gas struts, and hardware. Detailed instructions and a lifetime warranty allows you to transform your ride's doors into butterfly doors with ease!

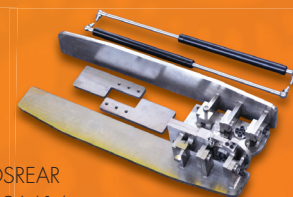

BFD2500  
#196391

• **Fluid Motion** • **2 Heavy-Duty Gas Struts** • **Single Stage Motion** • **Amazingly Simple & Smooth Operation**

## Rear Lambo Doors

If you have a four door ride, why have just two lambo doors? That's just not right. The new Autoloc rear lambo kit is the perfect way to solve this problem for any four door car.

UDSREAR  
#196414

• **Perfect for 4-Door Vehicles** • **2 Heavy-Duty Gas Struts**  
• **Works with OEM Latches** • **No Additional Modification Necessary**

## Suicide Hinge Systems

### ZeroFlex™ Suicide Hinges

Do you want to have the ability to open your doors backwards 90°? Autoloc's revolutionary Suicide Hinge System offers rugged, heavy duty all steel construction with Zero-Flex Hinges and 3/8" hinge pins. Our unique notch design and adjustable mounting holes ensure proper door alignment. Self-lubricating bushings provide years of trouble free operation. Sold in pairs (for 2 doors) with recessed door pockets, mounting hardware, and extra bracing.

Three models are available: HDHINS (independent), HDHIN (standard) and HDHIND (deluxe.) The deluxe system is fully adjustable for fine tuned alignment after mounting. The superior system features independent hinges, thicker and stronger construction, deeper hinge pockets and more range. Universal sizing; cut and weld to desired size. Kits are shipped with detailed instructions. Please note that professional installation is recommended. Backed by a Limited Lifetime Warranty.

## Trunk Hinge Kits

### Trunk Hinge Kit

The AutoLoc™ Universal Trunk Hinge Kit takes the difficulty away from designing a custom functional trunk! Make your vehicle's trunk function properly and appear professional. The specially designed J-arms get rid of ugly factory hinges and ensures trunk clearance when opening. J-arms are available in machined steel or aluminum so they can be painted to match or polished. AutoLoc provides everything needed to get the job done right.

## Side & Rear View Mirrors

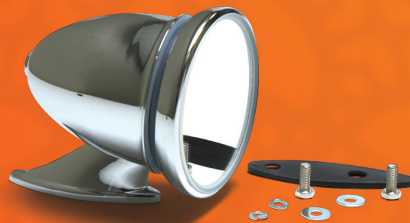

### Lookin' Out & Lookin' Good

Autoloc's selection of side view mirrors adds a serious touch of class to your ride. All mirrors are fully adjustable and have a brilliant, smooth chrome finish. Why allow your boring stock mirrors to thwart your glory? Autoloc has any mirror you need, from gutter-mount peep mirrors to body mount side views to windshield mount rear view mirrors that will turn heads so fast your ride will break necks.

## Electrical Controllers

### Light Sequencer

Indicate turns with style! The light sequencer controller flashes your turn signal bulbs in succession, instead of all at the same time. This not only adds a truly unique look to your ride, but it enhances your nighttime visibility as well. Sequenced turn signal bulbs give the 'chasing' effect.

EC1 #15951

### Dome Light Delay Controller

Sick of leaving your dome light on? The dome light controller automatically turns your dome light off 30 seconds after you leave your car, preventing dead batteries and increasing the visual security of your vehicle.

EC2 #15952

### Retained Accessory Controller

Not all work is done with the key in the ignition! Autoloc's Retained Accessory Controller allows you to operate any item wired up to your ignition circuit when the key is not in the ignition for a limited time. The unit will keep power on the ignition circuit for up to 30 seconds so that you can adjust your windows, stereo, power seats, and more without the key in the ignition.

EC3 #15953

### Self-Canceling Controller

Be driver friendly! Autoloc's Self-Canceling Turn Signal Controller allows you to limit the pulse length of your turn signals with ease! Ideal for push button turn signals, or peace of mind.

EC4 #15954

### Photocell Headlight Controller

Safety First! AutoLoc™ Photocell Headlight Controller will automatically turn on your headlights when the light level outside reaches a programmable darkness level. The same unit will also work for interior accent lighting. Work great with AutoLoc Interior AmberAccents™ and headlights.

EC5 #15955

### Brake Light Turn Signal Converter Module

For cars with only a brake light circuit, Autoloc® now offers the brake light turn signal converter module. This handy unit allows you to keep your simple brake light setup, but adds independently flashing right and left brake lights for full indicator legality on the road.

EC7 #54315

### Engine Start Activation Control Module

Autoloc ECO remote engine start controller allows you to activate your car with a push of a button. Programmable crank time and accessory power make it ideal for push button start applications. Press the button quickly to turn on your accessory and ignition, press and hold to start car. Simply press the button again to turn off the engine when running. Single button operation!

ECO #54309

### Gear Indicator Kit

What gear are you in? AutoLoc's gear indicator illuminates the correct gear you are in every time. The unique programmable controller will work on any transmission and ensures a trouble free smooth installation.

EC6 #15956

# Flame Thrower & Smoke Screen Kit

## 20 Feet of Fire

This sizzling product can make up to 20 feet of flames shoot from your exhaust tips with a touch of a button! The kit's main control box can control 2 spark plugs for optimal performance on dual-exhaust vehicles. Easy installation and detailed instructions ensure compatibility with most exhaust systems. The kit includes a control box, activation button, wire loom, and wiring diagram. The kit does not include the 2 coils and 2 spark plugs needed for complete installation. These kits are designed for carbureted vehicles, but can be used on fuel injected vehicles with additional modifications and parts.

## Smoke 'em if you got 'em!

If you think you are a fleeing special agent or you just want to add a little more spice to your burn out, the Smoke Screen Kit by AutoLoc™ is right up your alley! Just think, at a push of a button you can have a huge billow of smoke emerge from your exhaust pipe. Ideal for car shows and special effects. The Smoke Screen Kit includes high-pressure 1/8" copper tubing, compression fittings, one can of AutoLoc™ Smoke Screen, CNC machined base plate, an 1/8" 12V heavy duty valve and detailed instructions for easy installation. This kit is for off-road use only, and is not intended for use while the vehicle is in motion.

## Smoke Screen Cannister Refills

Stock up on Smoke Screen Refill Cannisters so you can always smoke the competition! The cannister should never be connected to the Smoke Screen Kit while vehicle is in motion. Only use with AutoLoc Smoke Screen Kit. Water-based non-toxic formula.

## Push Button Start Kit

### Easy, Simple & Secure

With the Autoloc™ Push Button Start Kit, you can easily convert your old caveman keyed ignition into today's standards. The push button start has a one-button activation for your accessory, ignition and engine start with programmable cranking times that make it ideal for any ride. L.E.D. illuminated buttons are available in 6 different colors and can be etched with anything you want.

Combine the Push Button Start Kit with the HF500 or HF1000 hands-free immobilizer kits for the ultimate in vehicle security and ease-of-use. See page 25 for details.

## Ultra Touch™ Invisible Switch

### UltraTouch™ Invisible Switch

The UltraTouch™ Invisible Switch system allows you to control any item with the utmost secrecy. The unique sensor design uses the natural electrical properties of your body to activate the unit and complete the desired circuit. The UltraTouch™ advanced sensor system allows you to hide the sensor behind or underneath any non-metallic items. For activation, simply touch the backside of the material to which the sensor is mounted.

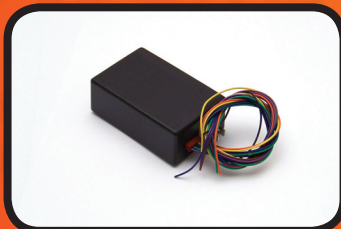

Works on glass, carpet, fiberglass, wood, non-metallic films, and more. Ideal for opening doors, rolling down windows, motorizing hidden compartments, linear actuator control, engine start and more! The UltraTouch™ Invisible Switch System is available in complete door kits, or as switch system only.

Recommends the UltraTouch™

#### Main Receiver Unit

#### Versatile Touch Sensor

#### Vehicle Retrofit System

Activating the UltraTouch™ is as simple as touching a surface!  
Turn any non-metal surface into a touch-activated switch.

## Shaved Door Kits

### Complete Shaved Door Kits

AutoLoc's Shaved Door Handle Kits offer the strongest solenoids on the market. Guaranteed to open the toughest of doors! Don't be fooled by inferior kits that claim their solenoids are strong enough to pop your doors open. Insist on the best! These kits are great on all latching systems including stubborn, older OEM latches. Available with 35 lbs solenoids or our NEW Adjustable, Heavy Duty Solenoid. The easy to use adjustable tip ranges from 50-105 lbs of pulling power! For added functionality, we also offer these kits with 18 function remotes, or a full featured alarm system, or both! All kits are backed by a Limited Lifetime Warranty. Use the SVPRO Specifications Chart and the Solenoid Performance Chart on the next page to choose your perfect kit!

### AutoLök Versus The Competition

## WARNING!

**DON'T SETTLE FOR ANYTHING LESS THAN THE BEST!**

**Rubber boots can also encourage water condensation, which ruins a solenoid.**

All AutoLök™ Heavy Duty Solenoids feature our Pro-Rated Return Spring. Our competitors' solenoids use rubber boots instead of return springs. These rubber boots become stretched, torn or deteriorate over time causing solenoid failure by allowing the piston to pop out.

# New! AutoLoc®

## Bolt-In Shaved Door Kits

### Quick, Easy Shave

With Autoloc's Bolt-in Shaved Door Kits, a handle shaving is the easiest it's ever been or will ever be. Kits come complete with latch-opening actuators and custom brackets for direct bolt-in convenience, keyless systems, harnesses, relays and multi-function key fobs. Comes complete with detailed instructions and backed by a Limited Lifetime Warranty.

- **Bolt-In Convenience**
- **Heavy-Duty Actuators**
- **18 Gauge Steel Bracketry**
- **Up to 8 Function Remotes**
- **Includes Relays & Harnesses**

Chevy S-10  
Bolt-in Kit

Page 22

### 1 Find your application in one of four groups:

#### A

- 82-93 S10, Blazer, S-15, Jimmy. (Does not fit Blazer/Jimmy rear doors-use universal kit)
- 88-98 Chevy/GMC Full-Size Trucks
- 88-98 Crew Cab Rear Doors
- 92-99 Tahoe/Suburban/Yukon (Does not fit Tahoe/Yukon rear doors-use universal kit)
- 82-92 Camaro/Firebird
- 85-94 Astro/Safari
- 81-88 Monte Carlo
- 78-87 El Camino

#### B

- 94-03 S10/Blazer/Sonoma/Hombre/Jimmy
- 99-06 Chevy/GMC Full-size Trucks
- 01-06 Tahoe/Suburban/Yukon (Does not fit Tahoe/Yukon rear doors-use universal kit)
- 94-02 Camaro/Firebird
- 00-06 Monte Carlo

#### C

#### Universal Bolt-in Shaved Door Kit

Fits all cars with compact, easy to install bracket.

#### D

- 02+ Dodge Ram Front

#### E

- 02+ Dodge Ram Rear Doors

#### G

- 95-05 Blazer/Jimmy Rear Doors

#### F

- 73-87 C10
- 73-87 C10 Crew Cab

### 2 Choose your kit style from one of three options:

#### B

Bolt-on brackets and actuators only.

#### R

Bolt-on brackets, actuators and 8 channel remotes.

#### A

Bolt-on brackets, actuators with remotes and alarm system.

### 3 Fill out this chart to get your ordering number. Example shown.

| Prefix       | Application | Kit Style |   |
|--------------|-------------|-----------|---|
| <b>SVB</b>   | +           | <b>B</b>  | + |
|              |             | <b>A</b>  | = |
| <b>SVBBA</b> |             |           |   |

SVBBA would be your ordering number, for example, if you wanted a bolt-in shave door kit for a 2002 Chevy S10 with keyless remotes and an alarm system.

## Shaved Door Accessories

### Emergency Release Kits

SAVE YOUR GLASS! AutoLoc's™ Emergency Door Release System allows you to open your door in the event of a dead battery or mechanical failure. Universal system works on all doors, trunks, hoods and more! All kits include detailed instructions and are backed by a Limited Lifetime Warranty.

### Keyed Emergency Release Kit

The new Keyed Emergency Release kit is the ideal backup plan in case your battery dies and you can't pop your shaved doors, but you want extra security.

SVERKEY

## Power Door Lock Kits

# AutoLoc®

### New!

### Heavy Duty Power Door Lock Kits

Power Up! Now you can transform your manual door locks into automatic power door locks. Each kit is designed and manufactured with the highest quality components available. AutoLoc's™ central power locking systems are unique because they allow you to operate your new power door locks with your vehicle's original door lock plungers, thus eliminating the need to mount aftermarket switches on your doors.

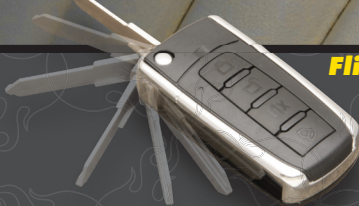

Kits are available for all import and domestic passenger or utility vehicles (trucks & SUVs). The instructions take you through the installation process step-by-step. If that isn't easy enough, AutoLoc™ has optional installation videos available through the web and on CD-ROM. Kits are available with remote operation or an alarm for added convenience and security. Backed by a Limited Lifetime Warranty.

## Keyless Entry Systems

# HANDS-FREE SYSTEMS

**Why wait for the future  
when you can have  
it right now?**

## Ultimate Security

## Ultimate Simplicity

### Hands Free Keyless Entry

No Hands! Using the same RFID technology found in secret government programs, you can now unlock and start your car with no keys, push-button fobs or other cumbersome devices. Simply walk up to your car, and the doors unlock when you're in a predetermined range while simultaneously enabling your push button start. Walk away from your car and the doors lock and the ignition circuit is disabled for the ultimate in vehicle security. Kit also features a valet mode for flexibility.

Kit also features built-in alarm with adjustable sensitivities and siren features, and optional motor starting or trunk release. If it sounds ideal, that's because it is.

HF1000 - #11995

- **Valet Mode**
- **Adjustable Range**
- **Alarm Features**
- **Ignition Disabling**
- **Anti-Carjacking**
- **Programmable Options**

### Hands Free Vehicle Immobilizer

The Hands Free Vehicle Immobilizer is simply the easiest way to guarantee the security of your ride. When you walk away from your ride, the kit completely disables the circuit of your choice, be it your ignition circuit, your shaved doors, or anything else! This kit is perfect for adding a high level of security to any push button start system or increasing security as a whole.

HF500 - #10182

- **Immobilizes & Secures Vehicle**
- **Completely Hands-Free**
- **Works On Any Circuit**

## Autoloc Keyless Entry

### Remote Keyless Entry Systems

TAKE CONTROL! At the push of a button, Autoloc's cutting edge keyless entry systems allow you to lock the doors, pop the trunk/hood, open/close your sunroof, roll your windows up and down, engage your linear actuators, remote start, turn on your headlights, neon, dome light, alarm, operate your stereo, or any other power accessory. With up to 18 output channels, you can remotely control just about everything on your vehicle. Choose between 4, 5, 6, 7, 8, 10, 16, and 18 channel versions of this incredible keyless entry system. Each system is backed by a Limited Lifetime Warranty.

Multiple Color and  
Button Options

- **Plug-in Harness**
- **Easy Installation**
- **Long Range/Compact Remotes**
- **Multi-Channel Remote Controls**
- **Code Learning Technology**
- **Operational with Air bags**
- **Detailed Instructions**
- **Limited Lifetime Warranty**

## Solenoids and Actuators

### Heavy-Duty Solenoids

Twist for more power! Introducing the best solenoids in the business—the Power Pull series. Heavy-duty construction with a single wire, self-grounding design. These tough solenoids are ideal for old latches and high-use applications. The AutoLoc SL50 now features a fully adjustable spring tension/travel feature that ranges from 50-105 lbs. AutoLoc's™ SL50 still includes the multi-point mounting tips to prevent slippage of the cable during heavy stress. Each kit also includes wiring, mounting hardware, cable, cable guide, self-grounding bracket, a heavy-duty backup button, detailed instructions, and a Limited Lifetime Warranty.

## Antennas

### Flush Mount and Frenched Antenna

The ultimate flush mount antenna kit! The AutoLÖc™ Flush Mount Antenna lets you have the shaved antenna look while still having the best reception possible. The Flush Mount Antenna features a billet aluminum tip, with set screw that can be sanded to the contour of the body panel. Tip can also be painted to match exterior color. The heavy duty motor ensures optimal performance and a lifetime of trouble-free operation. Kits come complete with several mounting brackets, antenna, motor, and more!

Down

Up

Tip is easily shaped to match body contour.

**Flush Mount**

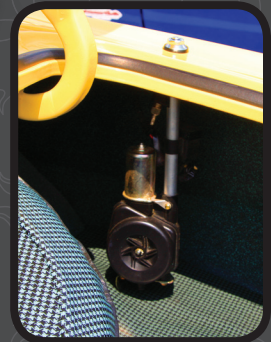

PACD - # 122642

**Frenched**

Makes the smoothest looking, most functional antenna!

### Antenna Extender Kits

No more freaking out over antenna cables that are too short- Autoloc now has antenna extender cables! That's right, you can now lengthen your antenna cable by up to fifteen feet, or by as little as three feet. Backed by a Limited Lifetime Warranty.

**Ideal for rear mount hidden antennas.**

Three Foot- AAEX3 - #201330

Fifteen Foot- AAEX15 - #201354

### Hidden Antenna

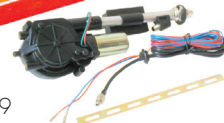

SHAVE THAT ANTENNA! Now you can shave your factory external antenna and achieve the ultimate clean look for your vehicle. The AutoLÖc™ Hidden Antenna offers crystal clear reception and peak performance. May be mounted in any position. It works just as well as a standard antenna without the unsightly antenna mast. Universal design ensures easy installation for all vehicles! Backed by a Limited Lifetime Warranty.

HAB - # 140875

### Power Antenna

GET CRYSTAL CLEAR RECEPTION! The AutoLÖc™ Power Antenna offers the ultimate reception at a very affordable price. Available with several styles of mounting bases to accommodate all mounting angles and positions. The heavy duty motor ensures optimal performance and a lifetime of trouble-free operation. Kits come complete with mounting bracket, antenna, motor, and more.

PAC - # 140769

## Adjustable Linear Actuators

### Deluxe Series Linear Actuators

You Want Extreme Power? AutoLoc™ is proud to introduce its line of industrial strength linear actuators. These are the ultimate accessory for installing power operated hoods, trunks, tonneau covers, or any other heavy-duty lifting applications. 16:1 gear ratio offers quick operation even on the most demanding lifting jobs. All of our linear actuators offer built-in limit switches to protect against over and under extension of the main gear. The heavy duty built-in clutch ensures your linear actuator will have a long life of consistent smooth operation. The light weight aluminum actuator casing protects the high-torque electric motor and the permanently sealed and lubricated heavy-duty actuator gears. Available in several sizes and load ratings. Great lifting power backed by a Limited Lifetime Warranty.

#### BUILT-IN ROD BEARINGS

AutoLoc™ linear actuators feature built-in rod bearings allowing for full swivel movement at the point of contact. Don't be limited by straight-line movement, our actuators with rod bearings allow you to use AutoLoc™ linear actuators for a wide array of applications ranging from automated doors to moving audio systems and amp racks.

#### Smoother

#### ADJUSTABLE SETTINGS

Exclusively adjustable! AutoLoc™ linear actuators feature industry-exclusive adjustability, giving you total control over the performance of your application. Need your 10" actuator to be 8 3/4" long? No problem! Simply use our 10" actuator and easily adjust it to the specific length you need. All actuators feature full adjustability, ensuring a custom fit on ANY application!

#### Quicker

#### HEAVY-DUTY MOTOR

All AutoLoc™ linear actuators feature high-torque, heavy-duty motors that are guaranteed to get the job done. Our motors are specifically designed to operate quickly, quietly, and smoothly, regardless of the load they're carrying.

#### Quieter

## Universal Power Windows

### Stop Cranking!

AutoLoc's Series of Universal Power Window Conversion Kits allow you to convert your manual windows to power-operated windows. The installation is easy because the motors connect directly to your existing window crank shaft. Unlike other "universal" kits, we offer heavy-duty motors which meet or exceed factory standards. Because of their high-torque motors and custom mounting brackets, AutoLoc™ Universal Power Windows are great for all cars that do not have power windows.

With the deluxe kit, you get switches, switch frames and mounting cases to give your vehicle an OEM look. You can upgrade to remote operation by using any of AutoLoc's keyless entry units and window controllers. Kits include detailed instructions and a Limited Lifetime Warranty.

Connects to

## Flat Glass Power Windows

### Power Up!

AutoLoc's Flexible Flat Glass Power Window Kit allows you to convert your old flat glass windows into a completely new power system. This NEW kit has been redesigned and now features a more flexible, remote mounted, heavy duty motor. The PW5500 series kits work great in small door shells and tight spaces.

AutoLoc's™ revolutionary SuperGlide™ window design ensures easy installation and guaranteed smooth operation. Each kit comes with high-torque flexible worm-gear driven Siemens motors, reinforced guide tracks, and adjustable window bases. All of which ensure quick, quiet, and dependable operation for the life of your vehicle.

#### A - Floating Track Design

Self-adjusting window track works with your window and door, not against it, for hassle-free operation.

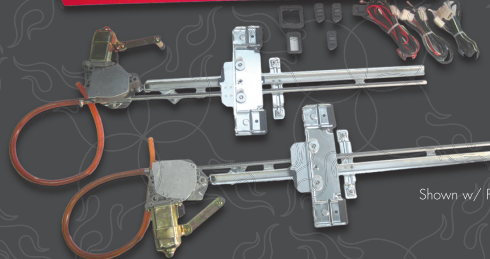

#### B - Remote 3x Motor Mounting

Heavy duty motors with flexible drive shaft so you can mount them in ANY door, no matter how tight the space.

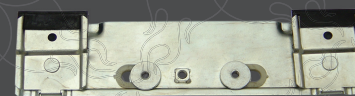

#### C - Reinforced Guide Tracks

Sturdy design guarantees perfect window alignment no matter how much you use your power windows.

## Power Window Accessories

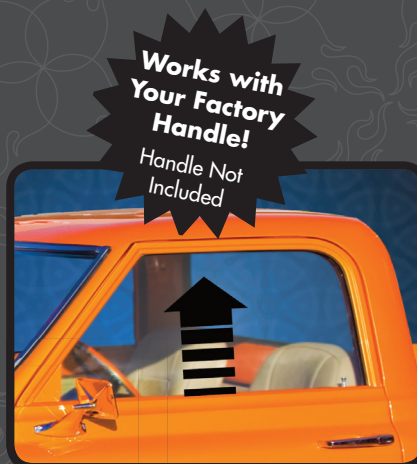

### Electric Window Crank Switch

AutoLoc's revolutionary electric window crank switches allow you to operate your power windows with your vehicle's original window crank handle, thus eliminating the need to mount aftermarket switches in your door panels. To operate your electric window, simply rotate the window crank up or down 15 degrees and your power window will roll up or down. These switches will work with your factory window crank handles, giving your vehicle a traditional look. Universal design and ultra thin profile makes installation a snap.

15° Up  
window up

15° Down  
window down

**Looks Like Your Crank,  
Works Like a Switch!**

- Available in multiple shaft styles
- Custom spline styles available
- Ideal for all vehicles
- Positive dead-lock stop for safety
- Heavy-duty design for durability
- Billet with stainless steel fasteners

### Dual Window Operation Kit

Operate two windows with 1 EWS switch.

EWSK #11179

| Description  | Model | SKU    |
|--|-------|--------|
| Spline shaft. Fits GM 1950 and up.                     | EWS1  | #10678 |
| Spline shaft. Fits early GM, Ford, European and Asian. | EWS2  | #10679 |
| Square shaft. Fits early Mopar and others.             | EWSS  | #10677 |
| Spline shaft. Fits 1931-1938 Chevy.                    | EWS3  | #11117 |
| Spline shaft. Fits 1939-1949 Chevy.                    | EWS4  | #11118 |

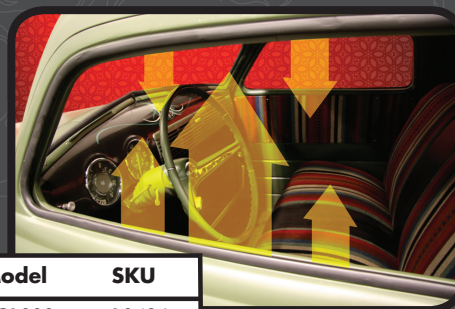

The electric window crank switches listed above are not sold with window crank handles. Please order the window crank switch that best corresponds to your vehicle or your existing window crank handles.

Check out our billet crank arms on page 55

### One-Touch Window System

Now you can add the convenience of "one touch" windows to any vehicle! Roll your windows all the way up or down with a single touch of a button. The new WC2000 will operate two windows at the same time or each window individually. These units will work on all window systems. Remote control option available!

| Description              | Model  | SKU    |
|--------------------------|--------|--------|
| Single One Touch Windows | WC1000 | #10486 |
| Dual One Touch Windows   | WC2000 | #15939 |

## Universal Wiper Kit

### The Best in Bad Weather

AutoLoc's™ Heavy Duty Power Wiper Kit ensures your safety every time you step into your vehicle! Its universal design also works great for custom applications or as a replacement for your old outdated system. AutoLoc's™ advanced 2 speed operation and heavy duty motors ensure a long life of smooth operation. Each kit features a plug-in harness that makes an install quick and easy for the weekend mechanic. Backed by a Limited Lifetime Warranty.

## Custom Headlight Kits

### Custom Headlight Bulb & Lens Conversions

Turn Night Into Day! Replace your boring stock headlights with AutoLoc's upgraded direct replacement HID kits & lenses. AutoLoc's headlight conversion kits make this headlight upgrade simple. All AutoLoc™ custom headlight upgrade kits feature high quality halogen or Xenon HID H4 bulbs and AutoLoc's exclusive Omni-View Technology™ to ensure maximum light output. Also available with turn signals that are built-in to the headlight housing. All kits come with detailed instructions.

**ION HID**  
Xenon Headlight Kit High Intensity Discharge

### 7" TriBar™ Headlights

Autoloc's™ TriBar headlight replaces the popular sealed beam headlights in all cars and trucks that use a 7-inch diameter headlight. Uses a replaceable bulb. Easy installation even for the "weekend" mechanic.

#### Included Dot Colors (for TriBar)

With color dot and built-in turn signal  
HL2T #131767  
HID Kit- HL2TH #54036  
Patent D551,364

Signal with clear lens and color dot  
HL2TC #15946  
HID Kit- HL2TCH #18546  
Patent D551,364

Standard with color dot  
HL2 #128095  
HID Kit- HL2H #12696  
HL2P #128156  
w/ Parking Light  
HID Kit- HL2PH #12699  
Patent D551,364

### 7" SnakeEye™ Headlights

The same superior lighting, but without the TriBar.

With built-in turn signal

HID Kit- HL1TH #12702  
Patent D551,364

Signal with clear lens  
HL1TC #190467  
HID Kit- HL1TCH #12703  
Patent D551,364

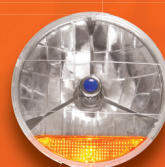

Standard Snake Eye  
HL1 #127024  
HID Kit- HL1H #12701

5 3/4" Sealed Beam Headlights  
H5006

### 7" Mustang-Specific Headlights

Custom Mustang Headlights have never been this easy!

TriBar with color dot and built-in turn signal  
Mustang Kit-MUSTHL2T #187108  
Patent D551,364

Standard triBar with color dot  
Mustang Kit- MUSTHL2 #187085  
Patent D551,364

SnakeEye with built-in turn signal  
Mustang Kit-MUSTHL1T #187122  
Patent D551,364

## ION HID Bulb Upgrade

### 5 3/4" TriBar Headlights

Autoloc 5 3/4-inch TriBar headlights have all the same features as the seven inch headlights, only smaller! Has many motorcycle applications as well.

Included Dot Colors (for TriBar)  

 Red Green Yellow Blue Black

HL2S #15949  
 HID Kit- HL2SH #12704  
 Patent D551,364

### 5 3/4" Snake Eye Headlights

Autoloc 5 3/4-inch SnakeEye headlights have all the same features as the seven inch headlights, only smaller! Has many motorcycle applications as well.

HL1S #11132

Patent D551,364

## ION™ Xenon HID Headlight Kits

Autoloc's™ ION™ Xenon Headlight kits are the perfect way to retrofit your ride with the latest in illumination technology found today on most luxury cars. HID lighting uses less power and has 3x the brightness of halogen lights. Each kit is available in the most popular bulb sizes and fittings and in a wide range of color temperatures. Kits come complete with wiring harnesses and ballasts. Simple installation.

For ION Xenon HID brightness and safety in your TriBar or SnakeEye headlights, follow the steps below to create your ordering code.

**ION™ HID**  
 Xenon Headlight Kit High Intensity Discharge

- **3x Brighter Than Halogen**
- **Single & Dual Stage Kits**
- **Plug 'N' Play Harnesses**
- **Includes Ballasts**
- **Draws Less Amps**

### 1 Choose Your Bulb Style

### 2 Choose a Color Temperature

### 3 Choose a Ballast Unit

**Regular**

**Slim**

**SD** - 55w Regular Ballast  
**SL** - 55w Slim Ballast

### 4

Fill out this chart to get your ordering number. Example Shown.

Prefix Bulb Color Ballast  
**IONB + H4 + 8 + SD = IONH48SD**

**IONH48SD**, for example, would be your ordering number if you wanted to put a single beam 8000k H4 bulb with a standard ballast.

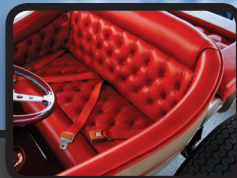

## Seatbelts

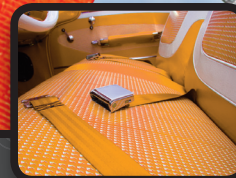

### Buckle Up in Style!

AutoLoc's heavy duty OEM style fabric, silver OEM style buckle, and CAD design ensures your safety every time you buckle up! AutoLoc's advanced CAD engineered seat belt systems use only the highest quality components to ensure a long life of smooth operation. No cheap plastic or components with cheap graphics. Each belt offers a unique easy release push button design for easy operation. Ideal for all types of vehicles including street rods! Available in several colors and configurations to best suit your needs. Backed by a Limited Lifetime Warranty.

## Button Icons

Autoloc's™ gorgeous BilletButtons™ are available with the icons shown below, plus any custom icon you want! This makes your BilletButtons™ completely custom, with an easily readable image for quick recognition of the button's function. Visit the online Button Builder to find any button you want or create your own with a custom graphic!

[www.thehoffmangroup.com/buttonbuilder](http://www.thehoffmangroup.com/buttonbuilder)

**3**

Choose your etched button icon, or choose 0 for none.

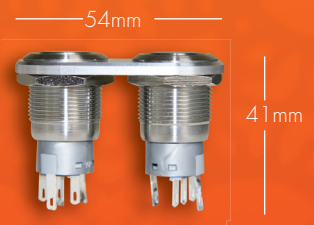

Don't see the icon you need? Go online to [www.autoloc.com](http://www.autoloc.com) to choose from thousands, add your own graphic or pick from premade graphics.

## Billet Button Switches

Autoloc's™ Billet Buttons are now available with two styles of overwhelmingly handsome billet switch bezels for stunningly smooth power window switches, power door lock switches, headlight switches, airbag switches, or anything you can think of! Available non-illuminated or illuminated in any of the vibrant six colors seen here, etched or plain, latching or momentary. 19mm size only. Specify buttons using chart below.

25mm Wide

**4**

If you want billet switches, choose A or B for your style, or choose 0 for just buttons.

**5**

Fill out this chart to get your ordering number. Example Shown.

| Part Number | Color    | Icon      | Buttons  |                   |
|-------------|----------|-----------|----------|-------------------|
| <b>SW46</b> | <b>4</b> | <b>16</b> | <b>B</b> | <b>= SW46416B</b> |

SW46416B would be the ordering number for a 22mm latching billet button with orange L.E.D. illumination. It would be laser etched with an arrow and come in a Retro button switch kit. Perfect for power windows!

### BilletButtons™ Wiring Harness

Billet Button wiring harness makes connecting your billet buttons and switches pain free.

19mm Button- SWHARN3 - #189379  
22mm Button- SWHARN4 - #12585  
16mm Button- SWHARN5 - #12586

## Custom Dipsticks Knobs

### Custom Knob Etching

With Autoloc's™ custom knob labels, your classy polished dipstick knob can say or show whatever you wish. Pick from the pre-made options, or whatever custom icon or logo you want.

SSK2- #262461

**New!**

### Knob with Custom Inserts

Autoloc's knob with custom inserts really adds that finishing touch. Put any image you want into the knob where it will be protected from heat and dirt by a plexi-glass cover. Perfect for pictures of your mom, wife, husband, dad or children, match your car's paint, or match it to your wheels or create custom labels! The options are endless!

## Product Display Systems

These interactive displays will make a great addition to your showroom floor. They will enhance and enrich your customers' shopping experience. Let your customers see and feel the quality of AutoLoc products. Show them you sell only the best! Displays are available for our line of high quality power window systems, HID Xenon headlight kits, shaved door kits, billet items, power antennas, trunk hinges, BearClaw™ Latches, headlights, windshield wiper kits and more!

## Grid Display Systems

The ultimate in display versatility! Our grid display systems can show off the virtues of any of The Hoffman Group's amazing products clearly in a space saving fashion that gets attention. Displays can be customized for your needs, for your space, and for your product.

## Point-of-Purchase Displays

The Hoffman Group's Point-of-Purchase Displays are the perfect solution for showing off product on shelves, counter tops, or other places in which space is at a premium. Many of our POP displays are illuminated for enhanced visibility and feature stainless steel construction or laser-etched plexi-glass for durability and showroom-enhancing appearance.
