Terms and Policies

Prices and Specifications

Prices and specifications on all products are subject to change without prior notice. Possession of the price sheet does not bequeath the right to purchase Airflow Research products at the prices printed herein. This price list does not constitute an offer to sell at the prices printed herein. Racer Net pricing is available to all retail customers of Airflow Research.

Payment Terms

Airflow Research accepts cash, checks, Visa, Mastercard, Discover, American Express, and C.O.D. terms (cash or check at AFR's option) for payment of all orders. Under limited circumstances Airflow Research may extend Net 30 days from date of invoice terms to qualifying Master Distributors. Full payment, without any discount allowed, must be received by Airflow Research by the 30th day following the date of the invoice. An account becomes past due if payment is not received by Airflow Research by the 30th day following the date of the invoice. Any account which has become past due will have new orders held until the account is current. All accounts having a past due balance will be charged a monthly service charge at the highest rate permitted in the state where they are located, but in no case will it exceed 1.5% per month.

Shipping and Freight

All pricing is FOB Airflow Research, Pacoima, CA 91331.

Returned Merchandise

Returned merchandise will not be accepted without prior permission from an authorized agent at Airflow Research, Inc. Return freight charges must be prepaid and include a copy of the original invoice. A 20% restocking charge is levied on all returned merchandise except warranty returns due to Airflow Research's error. Inventory exchange with approved authorization only. Once merchandise has been installed and used no returns allowed.

Custom Orders

A minimum 50% deposit is required on all custom orders.

Printing and Typographical Errors

Airflow Research is not responsible for errors in typesetting and or printing regarding either content or price.

Rights Reserved

Airflow Research reserves the right to make any and all changes, improvements, and/or revisions to products offered, as deemed necessary by Airflow Research, without prior notice. Changes may incorporate revisions in design, modifications, procedures, materials, specifications, or configuration without liability or obligation based on similar products previously offered. Airflow Research assumes no responsibility to upgrade previously purchased products of Airflow Research or products manufactured by other manufacturers supplied and offered by Airflow Research. Airflow Research further reserves the right to revise the content of cylinder heads and/or special kits and accessories currently offered without prior notice or liability. Because racing cylinder heads are used under severe and unpredictable conditions, Airflow Research assumes no liability for incidents resulting from racing accidents or gross misuse, neglect, improper installation, improper adjustments, dirt or other contaminants, or poor fuel quality.

Emissions Disclaimer

Unless otherwise noted, products listed herein are not legal for use on pollution controlled motor vehicles in the United States of America; and may not be legal for use on pollution controlled vehicles in other countries as well. Please contact Airflow Research or the local governing body responsible for regulating motor vehicle emissions in your area for more information.

Limited Warranty

All products manufactured by Airflow Research are warranted in the United States and Canada to be free from defects in workmanship and materials for a period of ninety (90) days from the date of purchase to the original purchaser. Airflow Research will repair or replace, at its option, any product manufactured by Airflow Research returned prepaid by the original purchaser when it has been determined by Airflow Research, at its sole discretion, that the product has failed due to defective workmanship or materials. When Airflow Research has determined, at its sole discretion, that the returned product does indeed have a warrantable problem, Airflow Research will reimburse UPS ground service charges for the return of the cylinder heads and will ship the cylinder heads back to the original purchaser, freight prepaid, via UPS ground service. Products manufactured by other companies which may be included with Airflow Research cylinder heads and/or sold separately are not warranted in any way by Airflow Research. Any warranties available on products manufactured by other companies are provided by those companies. This warranty does not cover fitness for purpose and/or merchantability on any product sold by Airflow Research.

This warranty does not cover the following:

1. Failure due to improper installation or maintenance, misuse, abuse, unauthorized repairs, modification, or alteration determined at the sole discretion of Airflow Research. If your machine shop, engine builder or installer performs any unauthorized repairs, Air Flow Research's warranty will be voided and Air Flow Research will not reimburse any cost you were charged.

2. Removal or replacement costs.

3. Costs incurred due to the downtime of the vehicle.

4. Damage to related components.

5. Normal wear and tear.

6. Products manufactured by other companies.

7. Fitness for purpose or merchantability.

Implied Warranty

This warranty is in lieu of all other warranties and/or representations, express or implied, including, without limitations, warranties of merchantability and fitness for purpose, and all other liabilities, including special or consequential damages, in connection with the sale or use of any Airflow Research product. Any warranties implied by law are limited in duration to the duration of this warranty, except in those states where prohibited by law.
