

Bulb Application Guide

2008-2009

***Ideas today for
the cars of tomorrow***

Get the Blues...

*...Xenon Blues!
Hella High Performance
Xenon Blue Bulbs*

The Blues are back! Hella High Performance Xenon Blue Bulbs produce a brighter, whiter light, closer in color temperature to actual daylight than standard halogen bulbs, providing increased visibility during night driving. See Hella's full range at www.hellausa.com/highperfbulbs. Get the Blues...Xenon Blues!

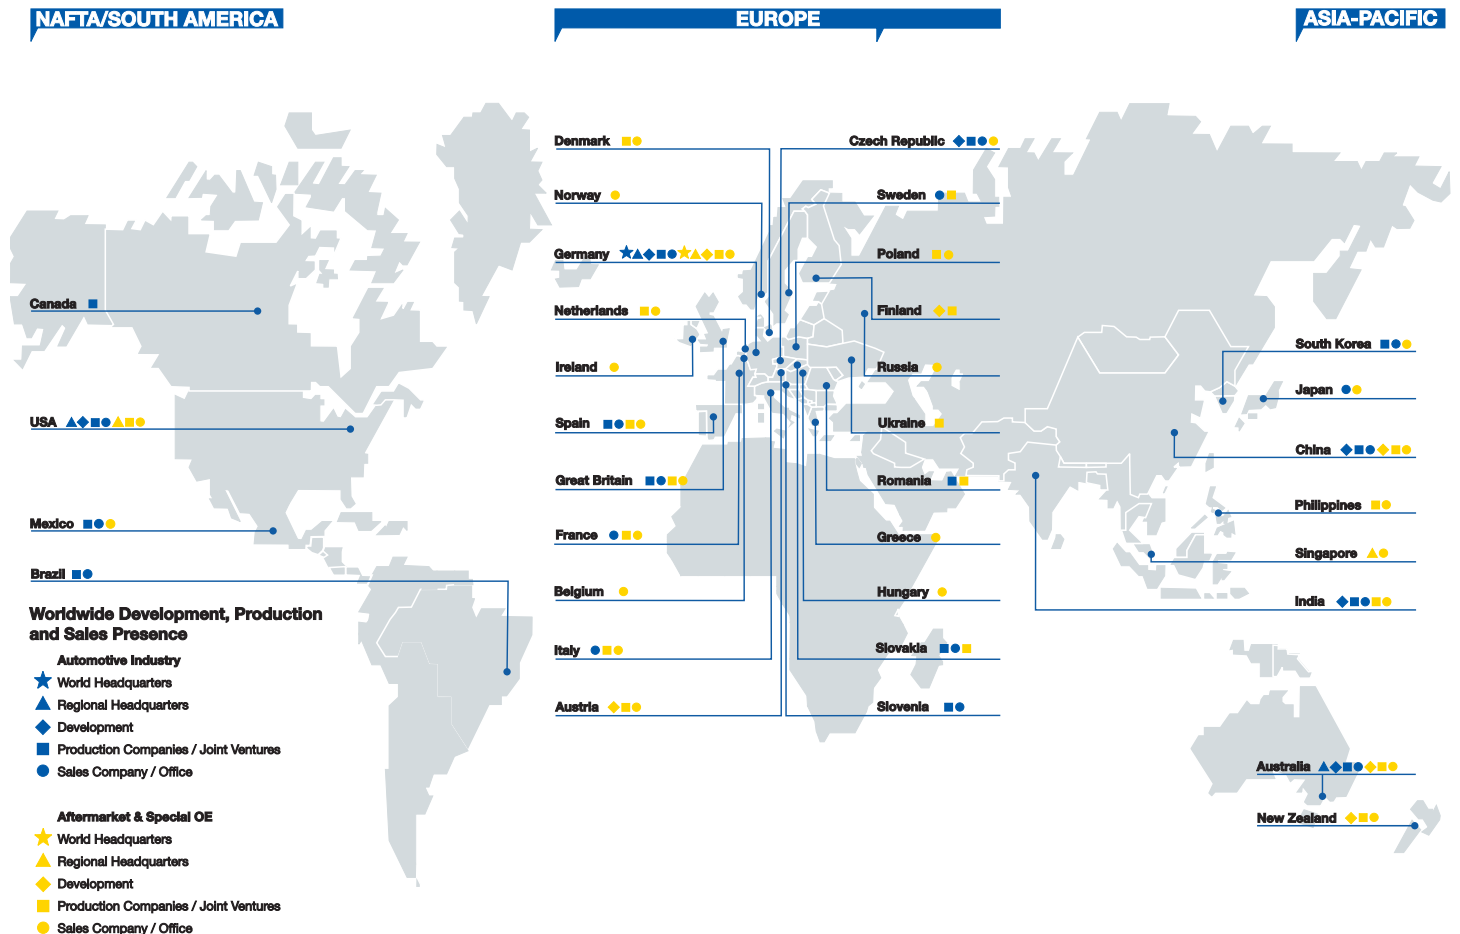

*Ideas today for
the cars of tomorrow*

Hella Worldwide

Hella develops and manufactures components and systems for lighting technology and electronics for the automotive industry. In addition, joint venture companies also produce complete vehicle modules, air conditioning systems and vehicle electric systems. Hella has one of the largest aftermarket organizations in the world for automotive parts and accessories, with its own sales companies and partners in more than 100 countries. The consolidated turnover of the Hella Group is around 3.4 billion euros. Hella is one of the top 50 automotive parts suppliers in the world and one of the 100 largest industrial companies in Germany. More than 25,000 people work in 70 manufacturing facilities, production subsidiaries and joint ventures all over the world. Almost 3,000 engineers and technicians work in research and development throughout the company group. Customers include all leading vehicle and system manufacturers, as well as the automotive parts aftermarket.

Customer Support

Aftermarket Club

- View technical information about Hella products
- Download Marketing brochures, flyers, catalogs, cross-references & mounting instructions
- Check order status (available now) and stock availability (coming soon)
- Find service team contact information
- See new product updates
- Contact Hella, Inc. for logon information

Online Catalog

- Over 1400 products listed with product points, technical information, diagrams & beam patterns
- Current range includes all lighting products as well as horns & relays
- In future, catalog will include full range of Lighting, Electrics, Electronics & Thermal Management
- Access online thru hellausa.com or hellacanada.com

Marketing Support

- Request product images and logos for print and web
- Design support with distributor catalogs
- Promotional print materials
- Trade shows and events

Hella's Bulb Range

Hella's bulb range consists of Xenon capsules, Xenon Premium Halogen, Yellow Star Halogen, standard halogen bulbs and High Performance Xenon Blue Bulbs.

Xenon Capsules (Gas Discharge)

Xenon capsules create a light from an electrical discharge between two electrodes in an environment of metal halide salts, mercury, and Xenon gas hermetically sealed in a quartz capsule. Hella's Xenon capsules provide a blue-white light source that is very close to natural daylight and deliver at least 70% more light at a lower wattage than traditional lamps. Xenon capsules should be used exclusively with Xenon lamps/ballasts.

Xenon Premium

Hella's Xenon Premium halogen bulbs deliver a 30% higher light output and wider field of vision than standard halogen bulbs. The addition of Xenon gas increases bulb performance.

Yellow Star

Yellow Star halogen bulbs feature multi-layer technology to produce a contrasting yellow light, which improves visibility when driving during rain, fog, or snow.

Halogen Bulbs

Halogen bulbs by Hella can be relied upon for their long life and light output. Rigorous testing ensures our bulbs will stand up to the wear and tear of everyday driving. OEM quality.

Hella's High Performance Xenon Blue Bulbs

Hella's High Performance Xenon Blue bulbs are the new market standard. Produced under Hella's stringent testing requirements, our bulbs beat all others on the market. Correct filament alignment assures maximum light output. The blue glass provides the crisp white beam pattern consumers today demand. Hella's Performance Xenon Blue bulb range features on-road, DOT-compliant bulbs in all popular base types, as well as higher-wattage off-road-use bulbs.

High Performance Xenon Blue Bulbs

**All bulbs are 12V and are packaged in hard plastic shells.*

The Optilux Extreme XY Bulbs provide the vehicle owner both fit and function. The Optilux XY Bulbs are designed to give you better visibility in extreme weather conditions as well as provide you with the look of the GT Series race car lights. The Optilux XY Bulbs produce a crisp yellow light from a bulb that is manufactured to the most precise measurements to provide the exact amount of light needed on the road. All Extreme XY Bulbs are intended for off-road use only.

Driving Lamps with Attitude

The Optilux line of auxiliary lighting brings revolutionary style to compact forward lighting. Fast and easy installation makes Optilux lamps an easy choice. Most models feature 180° of rotation, and all models have die-cast metal housings, 55W H3 bulbs, and glass lenses.

Model 2500 "Angel Eyes"

The exciting Angel Eyes look in a round driving lamp! The crisp driving beam is highlighted by the Angel Eyes light ring, powered by bright white LEDs. Gloss black housing completes the style. 4" Dia. x 3.1"D.

Model 2500 Driving Lamp Kit

#H71010371

Model 1200 Fog

Tire Pressure Monitoring System

Perfect for all cars, light trucks, and SUVs, Hella's TC-400 Tire Pressure Monitor offers a fully active, radio-controlled system for permanent monitoring of tire pressure and temperature. High-tech sensors replace the tire valves and transmit pressure and temperature by radio to the central unit to the cockpit display. In the event of sudden pressure loss, the control unit triggers an optical and acoustic alarm. Additionally, the system also warns of slow loss of pressure and of excess pressure.

TC-400 w/4 sensors
