## PARKING SENSOR SYSTEM

- \* NR-600 Series parking sensor systems are the new generation design with dual CPU & 4 individual channels to detect obstacles behind vehicles.
- \* NGD (No Ground-Detecting) Technology: the ultrasonic beam is of excellent flat shape, the obstacle lower than 1cm cannot be detected to offer more precise readings.
- \* Unique ultrasonic resistance function can filter environmental ultrasonic wave effectively.
  - \* System has sensitive adjustment feature to avoid false alarms.
- \* All plugs are sealed in the control box; dustproof, waterproof, free of condensation and thus longer lasting.
  - \* Universal control box can be connected to LED visual display.

### MODEL / DESCRIPTION

#### **NR600B**

6 sensor system BLACK, up or dash

#### **NR600S**

6 sensor system SILVER, up or dash

#### **NR600W**

6 sensor system WHITE, up or dash

#### **NR-800**

8 sensor system BLACK, up or dash
