PROJECT VEHICLE

2002 MERCURY MOUNTAINEER: ENSURE EDITION SPECIAL PROJECT VEHICLE PROMOTES SAFETY

We have taken a 2002 Mercury Mountaineer provided by the Ford Motor Company and added our new "Ensure Edition Package" which consists of the following Benevento products: Aeroforce twin flap style sunroof wind deflector, Formfit hood deflector, side window deflectors and "Ensure Edition" badging. This tasteful treatment adds style to our project vehicle and transforms it into an "Ensured" driving experience.

SAFETY

Our exterior products not only enhance the vehicles' looks, but aid in reducing the effects of inclement weather. Our Aeroforce twin flap style sunroof wind deflector eliminates wind noise, improves aerodynamics, and allows both the passenger and driver to control airflow into the vehicle. Our side window deflectors provide ventilation by letting fresh air in, and keeping rain, snow, and sleet out. Our Formfit hood deflectors protect the vehicle's finish and improve aerodynamics.

FAMILY, FUN & STYLE

Benevento prides itself on the design and appearance of its products. They are stylish and functional. Each Benevento product adds to the enjoyment of every car, truck or SUV by providing function, safety, style and fun for the whole family.

AEROFORCE TWIN FLAP STYLE SUNROOF WIND DEFLECTOR

- Features a unique dual flap design
- Allows passenger & driver to control airflow
- Easy clip-on installation
- Made in USA

SIDE WINDOW DEFLECTORS

- Inclement weather ventilation
- Easy tape-on installation
- Adds style and function

FORMFIT HOOD GUARD

- Adds style and function
- Protects against road debris & scratches
- Fits the contours of each vehicle
- Easy no-drill installation

ENSURE EDITION BADGES

ABOUT BENEVENTO

MAIN FACILITY USA

Our main plant, based in Mt. Vernon, New York is our primary production and distribution facility. From here, we ship to our national network of satellite distribution facilities, local regional customers and provide export production to our foreign affiliates throughout the world. Benevento is continually upgrading its equipment and has been dedicated to continuing its quest for the finest product possible.

We use the latest technology to produce our products. From our specifically designed CAD-CAM software, to our state of the art 500 watt lasers, and custom designed thermoforming machines, Benevento strives to bring you the latest and greatest products in the world. The more you look, the more you will **"See The Difference"**. Our product line is updated nearly every day. Benevento has always prided itself on quickly answering the demands of its customers and putting those changes rapidly into production. We currently employ over 100 skilled personnel to handle day to day operations such as: **Research & Development, CAD-CAM Design, Procurement, Aftermarket Sales, OEM Sales, Distribution, and shipping & Receiving.**

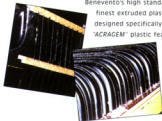

What sets Benevento apart from the competition?

It's all in the raw materials. These materials must meet

Benevento's high standards. We use the

finest extruded plastic in the world

designed specifically for automotive applications. Our exclusive "ACRAGEM" plastic features superior formability and a crystal clear finish. It is able to withstand extreme temperature fluctuations and still retain its functionality.

ABOUT BENEVENTO

INVENTORY & DISTRIBUTION

ITS ALL IN THE PACKAGING

Benevento Keeps an in-depth inventory of popular part numbers, so there is little or no wait, allowing us to ship most items the very same business day. We ship **UPS**,

Fed-Ex and **truckfreight** daily to meet our customers' needs. *Note: Special order or non-stock custom items will take longer to ship.*

Benevento has developed a packaging system that insures products will arrive clean and well protected. Most items are shipped in retail-friendly containers which clearly show the part number, application, and benefits of each particular product. Our

computerized management software keeps track of raw

materials, quantity of product being shipped, currently stocked products, and production orders. A special tracking system can locate a job anywhere in our production line at the touch of a button. This system has allowed Benevento to streamline many aspects of the business, thereby making us much more efficient, productive and competitive.

In our efforts to bring you a better product, Benevento has been, and will continue to upgrade every aspect of the business. We are dedicated to producing the "Best In The World" products so your customers will keep coming back again and again.

HEADLIGHT COVERS

PHANTOM HEADLIGHT COVERS

These Phantom headlight covers add unique styling to any vehicle. They come in a black and clear street legal design that offers an easy on/off installation. They also offer a smart protection solution to today's expensive headlight systems.

SHADOW HEADLIGHT COVERS

These CAD-CAM designed Shadow headlight covers make a bold statement on any vehicle. They are strong yet lightweight, come in smoked acrylic, clean up easily, and quickly snap over the headlights.

Note: For offroad use only

SIDE WINDOW DEFLECTORS

SIDE WINDOW DEFLECTORS

Benevento designed its window deflectors to be stylish and functional. Not only do they improve the styling on any car, truck or SUV, they help deflect rain and snow from coming inside. They are available in a smoked color and come with a limited lifetime warranty and easy stick-on installation.

REAR AIR & SOLAR GUARDS

REAR AIR GUARDS

FOR TODAY'S TRUCKS & SUVs

These CAD-CAM designed air guards look stylish and also help keep the rear window clean and prevent dust buildup. Like most Benevento products, there is no drilling required. In keeping with current safety standards, a third brake light grill is standard on some applications.

REAR SOLAR GUARDS

FOR TODAY'S "SPORT CARS"

These rear visors add solar protection for the rear passengers and help keep the vehicle cool. They add a stylish custom look to any "sport car".
